Audit Findings

Audit Narrative

Methodology:

The PREA audit of the Bullock Correctional Facility (BCF) was conducted January 22 – 24, 2019. BCF is operated by the Alabama Department of Corrections (ADOC). Bullock Correctional Facility hereinafter may be referred to as facility.

The auditor uses a triangular approach, by connecting the PREA audit documentations, on-site observation, tour, practice, interviewed staff, inmates, and local and national advocates to make determinations for each standard.

Pre-Audit:

During the pre-audit phase the facility received instructions to post the required PREA Audit Notice of the upcoming audit prior to the audit for confidential communications. The facility posted the notices in English and Spanish. The auditor received photos of the time-stamp posted notices.

The PREA requires the auditor to conduct outreach to relevant national and local advocacy organizations. To communicate with community-based or victim advocates who may have insight into relevant conditions in the facility. The following national advocacy, State, and/or community advocacy organizations were contacted.

The auditor or associate asks the local and/or national advocacy organizations the following questions:

1. How many SAFE or SANE referrals made in the last 12 months?
2. Can the inmate remain anonymous, upon request, when making a report?
3. Who do you notify at the facility regarding the report?
4. How many reports have the organization received in the past 12 months for advocacy services?
5. How many inmates reported sexual abuse and/or sexual harassment?

The Pre-Audit Questionnaire was completed and sent to the auditor as required. As a part of the on-site visit the auditor requested that the facility PREA compliance manager review and revised the Pre-Audit Questionnaire to reflect updated information to include the current population.

The auditor completed a documentation review using the Pre-Audit Questionnaire, internet search, policies and procedures review, and additional documentation provided on the flash drive, to include both the agency and the facility policy and procedures, agency mission statement, daily population report, schematic/layout for the facility, and the last final PREA Audit Report. The facility was provided a list by standards of the documentation reviewed doing the pre-audit phase.

The results of the documentation reviewed were shared with the facility prior to and at the site visit. Phone conversations were conducted, and email exchanges occurred with the facility.

The facility provided the auditors with the requested meeting space, work space with adequate outlets and permissible technology (laptop and cell phone).
Tour:

On the first day of the audit after the entrance conference, the auditor toured the physical plant. It was requested that when the auditor paused to speak to an inmate or staff, that staff on the tour please step away so the conversation might remain private. This request was well respected.

During the tour, the auditor observed renovation projects throughout the facility, to include but not limited to: replacing all table and chairs in the dining hall, replacing large cooker in the kitchen, and painting the dining hall. The corridors in dorms C, K, D, and J painting project were completed on 01/21/19. In Dorms K, J, I and G the beds were reduce from double bunks to single bunks allowing staff to observed inmate through direct sight lines. The facility PREA compliance manager explains that these dorms were selected due to high levels on incidents. All beds in the K, J, I and G dorm were painted.

All lights were replaced in K, J, I and G dorms. Showers walls and floors were replaced in the I-2 dorm.

Auditor observed the location of staff having direct viewing of inmate using the toilet and/or showers (this will be address under the findings). The shower and some of the toilet areas allow inmate to have a level of privacy from staff direct viewing. Inmate's phones were checked to ensure they were working and had a dial tone. The inmate's risk screenings start at intake and are completed by classification staff. The auditor was provided unimpeded access to all parts of the facility and all secure rooms and storage areas in the facility.

During the tour, staff and inmates that engaged in conversation with the auditor discussed shortage of staff and their concern with safety issues.

As of 01/22/19, the total number of full time allotted security staff was 335 and the number of staff actually assigned during the first day of the audit was 141.

The auditor observed no video cameras for monitoring. The facility has installed over 87 mirrors to help mitigate blind spots. The mirrors were added throughout the facility to include dorms I1, I2, J1, J2, K1, K2, K3, K4, K5, K6, K7, and G1.

The auditor also observed announcements of female staff entering the male housing units. The auditor had opportunities to view inmate and staff interaction. There was also ample time to observe the nature and quality of inmate supervision throughout the on-site audit process, and in all instances the auditor observed appropriate respect on the part of both inmates and staff.

The PREA standards require the auditor to tour the facility to verify compliance with the standards. The following areas and locations were visited.

Hotline Calls:

- The total number of PREA hotline calls in the past 12 months was 90. Of the 90, 19 were determined to be PREA related calls. The inmate’s use #66 and the calls are directed to Alabama Department of Economic and Community Affairs (ADECA).
Summary of Audit Findings

On 01/24/19, the auditor conducted an exit conference with the agency and facility officials.

The following staff attended the exit conference.

- Patrice Richie, Warden III
- Pamela Butler, Facility PREA Compliance Manager
- Taborez Surles, Agency Assistant PREA Director
- Adam Barnett, USDOJ Certified PREA Auditor

Facility officials were very open and receptive to an honest discussion of areas that where PREA compliant and areas that were non-compliant. The auditor thanked the warden and the staff for the hospitality provided to the auditors and mentioned staff that was exceptionally helpful.

There were four standards needing corrective actions.

The narrative below include a discussion of the evidence relied upon in making the non-compliance determination. The discussion includes corrective action as well as information on specific corrective actions or the response taken by the facility and the auditor’s conclusions.

Standard 115.15 – Limits to Cross-Gender Viewing and Searches.

**Concern:** The standard requires the facility to implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing.

The dorm areas where inmates perform bodily functions do not prohibit any staff from direct viewing. Some toilets located in the dorms are not sufficiently covered. During the facility tour inmates were observed using the toilet. To block staff direct viewing the inmates use a large trash can to sit on top of the toilet next to them blocking staff direct viewing. This practice was observed in the following dorms:

- C2
- C4
- E2
- E1
- D2
- D1

**Corrective Action:** The facility will install partitions and provide the auditor with documentation of scheduled renovation dates to make
repairs and pictures of partitions installments. This provision is compliant; the facility has provided the requested pictures on March 15, 2019.

- **Concern:** The G1 dorm hall windows where inmates shower do not prohibit any staff or oppose gender from direct viewing. During the facility tour an inmate was observed showering from the outside hall; staff and auditor had a direct view of the inmate’s body.

  - **Corrective Action:** The facility will request for the Maintenance Department to replace the frost on the lower shower window to block staff direct viewing from the hall. Facility will provided documentation and pictures of the completed work. This provision is compliant; the facility has provided the requested pictures.

**Standard 115.41 - Screening for Risk of Victimization and Abusiveness**

Confidential Communications:

As of 01/21/19, there were three confidential communications from inmates, and none for staff members. The confidential communication from the inmates did not indicate that the inmates were in any imminent harm or threatening self-harm. The inmates were added to the interview list.

Confidential Communication #1: Inmate letter stated that he was in the Faith Based Dorm and the PREA officer move him out of the dorm. His concern is that he has no PREA issues or violations and would like to be place back into the Faith Based Dorm.

- Interview with inmates indicated that two months ago he was labeled as Sexual Predator. The inmate concern was that the Parole Board will review the PREA labeled as being negative information or feedback.

- The auditor requested the initial PREA Risk Assessment and any additional re-assessments. On Wednesday, 01/23/19 the Classification Office provided the auditor with a copy of the requested documentation. The initial PREA Risk Assessment were dated on 12/22/17 which indicated that the inmate scored as a Sexual Predator and additional documents referred the inmate to Mental Health. Mental health conducted a session on 12/27/17.

- A second PREA Risk reassessment were conducted on 10/29/18, the inmate scored as a Sexual Predator.

- To address the inmate concern of moving out of the Faith Based Dorm because of being labeled as a Sexual Predator, the auditor interviewed the
facility PREA compliance manager, it was indicated that Bullock eliminated the Faith Based Dorm on 04/02/18 due to facility renovations. Inmates were and will be moved to different dorms to accommodate the renovation projects.

Confidential Communication #2: The inmate letter stated that he felt compelled to tell the auditor about PREA related issues at the facility. He indicated that the staff was prancing because of the upcoming PREA audit. The PREA staff has tagged random inmates with the status of victim or predator without justification or due process.

- Letter Number 2 did not have any information to identify the inmate. The PREA auditor could not schedule an interview with inmate. However, it appears that the facility counselors were doing reassessments.

Confidential Communication #3: The inmate letter stated that he would like to request a meeting with the PREA auditor concerning PREA. The letter stated that there are questions he would like to ask regarding PREA.

- Interview with inmates indicated that 12/02/18 he was labeled as a PREA Victim and was reassigned to another side of the dorm. The inmate concern was that the Parole Board will review the PREA labeled as being negative information or feedback.

- The auditor requested the initial PREA Risk Assessment and any additional re-assessments. On Wednesday, 01/23/19 the Classification Office provided the auditor with a copy of the requested documentation. The initial PREA Risk Assessment was dated on 03/08/17 which indicated that the inmate scored as a Risk for Victimization and additional documents referred the inmate to Mental Health. Mental health conducted a session on 05/02/17.

- A second PREA Risk reassessment were conducted on 09/07/18, the inmate scored as a Risk for Victimization.

- During the inmate interview, he was asked if he feels any danger or unsafe in his current living unit. He stated no.

**Standard 115.51 – Inmate Reporting**

**Concern:** The standard requires the agency/facility to provide at least one way for inmates to report sexual abuse or sexual harassment to a public or private entity or office that is not part of the of the agency, and that it is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request.
A check of all inmate phones in the living areas (dorms) revealed that 32 phones were not working. The following are dorms and the number of phones that were not working during the facility tour.

- C1 – 4 Phones
- C3 – 1 Phone
- C4 – 2 Phones
- K3 – 2 Phones
- K5 – 2 Phones
- K4 – 3 Phones
- J2 – 1 Phone
- I2 – 2 Phones
- G1 – 1 Phone
- G2 – 3 Phones
- F2 – 3 Phones
- H1 – 1 Phone
- E2 – 1 Phone
- E1 – 4 Phones
- D1 – 1 Phone

**Corrective Action:** The facility will provide the auditor with documentation of scheduled phone repairs and documentation of completed work. This provision is compliant; the facility has provided the requested documentation.

**Concern:** Inmates detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

The facility did not provide available information to inmates who maybe detained solely for civil immigration on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- The auditor and the facility disused attaining copies of the United States Department of State Consular Notification and Access Document and copies of the Consular and Trade Offices for the State of Alabama; and maintain the information in the Law Library or General Library for inmates review for any inmate that may request the information.

- An email was shared with the auditor for the agency PREA director stating that “We do not hold immigrants in our custody. That should be no-applicable.” The email also stated that “We’re not required to have that because we do not house immigrants.”

- The assistant agency PREA coordinator indicated that the PREA director will get a statement for their Legal Office.
On 01/26/19, the agency provided the auditor with an affidavit stating that The Alabama Department of Corrections does not detain persons solely for civil immigration purposes. This provision is now rated as compliant.

Standard 115.53 – Inmate Access to Outside Confidential Support Services

**Concern:** The standards require the facility to provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies.

Forty-two of interviewed inmates indicated that they were not aware of the outside victim advocates for emotional support services. However, most were aware of the Alabama Rape Crisis Center Lighthouse for collections of forensic medical examinations.

**Concern:** The standards also call for the same outside confidential support services for persons detained solely for civil immigration purposes, immigrant services agencies.

- **Corrective Action:** The facility will publish the outside support services information in the staff/inmate newsletter with the address for emotional support services with the exception of the information for inmates solely for civil immigration purposes. This provision is compliant.

The standards are rated as exceeded, met, or not met. Most standards have between 1 – 20 plus provisions. To achieve compliance on any given standard, the facility must achieve 100% compliance with each provision within the standard. The auditor used the *Department of Justice Final Rule for PREA Standards*, published in May 17, 2012. Forty-five Prisons and Jails Standards were audited.

The agency PREA director and the facility PREA compliance manager were very knowledgeable about the PREA requirements and the implementation of processes and systems.

Corrective actions, specific detail about deficiencies or concerns regarding findings may appear in the standard-by-standard discussions in the main body of the report. If the facility does not correct stated concerns within 45 days before the auditor releases the interim report this will start the corrective action process. If the facility corrects the stated concerns within the 45 days and the auditor agrees, then the final report will be released.

A. The agency policy requires BCF to develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring to protect inmates against abuse.

According to interviews with management staff and documentation, when the facility calculates adequate staffing levels and determining the need for video monitoring, they consider the following as stated in the standards:

- Generally accepted detention and correctional practices;
- Judicial findings of inadequacy;
- Findings of inadequacy from federal investigative agencies;
- Findings of inadequacy from internal or external oversight bodies;
- All components of the facility’s physical plant (including “blind-spots” or areas where staff or inmate may be isolated);
- The composition of the inmate population;
- The number and placement of supervisory staff;
- Institution programs occurring on a particular shift;
- Applicable State or local laws, regulations, or standards;
- The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
Other relevant factors.

B. According to staff interviews and documentation, each time the staffing plan is not complied with the facility documents and justifies deviations from the staffing plan; there were deviations from the staffing plan do to staff shortages. The facility document deviations on the Security Count for BCF which include the date, position title, actual count and the number of security staff shortages.

C. Agency and Facility management interviewed indicated that at least once every year the facility, in collaboration with the agency PREA Coordinator, reviews the staffing plan to see whether adjustments are needed in:

- The staffing plan,
- The deployment of monitoring technology,
- The allocation of agency/facility resources to commit to ensure compliance with the staffing plan.

D. Staff interviews and documentation indicated that the facility requires that intermediate-level or higher level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Facility provided documentation of unannounced rounds, which the rounds cover all shifts to include night and different timeframes. The policy prohibits staff from alerting other staff when unannounced rounds are conducted.

Staff Interview Results

- Interview with the facility PREA compliance manager indicated that she is consulted regarding any assessment of or adjustments to, the staffing plan.

- Interview with the warden indicated that the facility has a staffing plan - shift rosters. It was indicated that the staffing plan is built into the original construction of the facility. When assessing adequate staffing levels and the need for video monitoring they consider all of the components listed in the standard. The facility does not have video monitoring.

- Interviews with facility high and intermediate level staff, that conduct and document unannounced rounds, indicated that they are conducting and documenting unannounced rounds. Submitted documentation supported staff comments. Interviewed staff also indicated that policy prohibits staff from alerting other staff and also that they monitor the radio communication. It was recommended that more details be added to unannounced rounds documentation.

the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. Youthful Inmate SOP/Donaldson CF & Tutwiler CF
3. Statement of Non-Occurrence/Non-Applicability (Facility does not house youthful inmates)
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Warden
   b) Facility PREA compliance manager
   c) Random staff (Officers) – line staff
   d) Education Staff
   e) Program staff
   f) Youthful inmates

A. A review of documentation and staff interviews indicated that the BCF does not house youthful inmates. However, interviewed staff indicated that if the facility received a youthful inmate they would not place the youth in a housing unit in which the youth would have sight, sound, or physical contact with any adult inmate through use of a shared dayroom or other common space, shower area, or sleeping quarters. They would not place a youthful inmate in the same housing unit as the adult inmates.

   A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:
   - In the past 12 months, the number of housing units to which youthful inmates were assigned was zero.
   - In the past 12 months the number of youthful inmates placed in the same housing unit as adults at this facility was zero.

B. Interviewed staff also indicated that if the facility received a youthful inmate, the facility can maintain sight, sound, and physical separation between youthful inmates and adult inmates in areas outside the housing unit; and will provided direct staff supervision to the youthful inmates until the youthful inmate is transferred.

C. The youthful inmate, according to staff interviews, will not be placed in isolation to comply with PREA and will not be denied daily large-muscle exercise and any legally required special education services to comply.

   A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:
- In the past 12 months, the number of youthful inmates who have been placed in isolation in order to separate them from adult inmates was zero.

**Staff Interview Results**

- Interviews with the facility staff and a review of facility demographics/documentation reveal that BCF does not knowingly admit youthful inmates.

- Interviews with the facility PREA compliance manager and randomly selected staff indicated youthful inmates are not housed at this facility. Interviewed randomly selected staff stated youthful inmates are not housed at this facility and during the audit period, there were no youthful inmates observed.

- Interviews were not conducted with youthful inmates because the facility does not house youthful inmates. Additionally, interviewed staff indicated that they have not worked or supervised youthful inmates.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. OPR #15-004 Limits To Cross-Gender Viewing and Searches (Knock and Announce)
3. Statement of Non-Occurrence/Non-Applicability (Has not had an occurrence of training for cross gender viewing and searches)
4. Staff Receipt of PREA (See Training Power Point)
5. PREA Security Updates 2018
6. PREA Sign-In Sheet
7. Pre-Audit Questionnaire/Adult Prisons & Jails
8. Interviews:
   a) Warden
   b) Facility PREA compliance manager
   c) Random staff (officers) – non medical
   d) Random inmates
   e) Transgender or intersex Inmates

A. Interviewed staff and documentation indicated that the facility does not conduct cross-gender strip or visual body cavity searches of inmates.

   In the past 12 months, the number of cross-gender strip or cross-gender visual body cavity searches of inmates was zero, and the number of cross-gender strip or cross-gender visual body cavity searches of inmates that did not involve exigent circumstances or were performed by nonmedical staff was zero.

B. The facility does not house female inmates.

C. The facility does not conduct cross-gender visual body cavity searches and cross-gender pat-down searches of female inmates; the facility does not house females.

   A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

   - In the past 12 months, the number of pat-down searches of female inmates that were conducted by male staff was zero.
- The number of pat-down searches of female inmates conducted by male staff that did not involve exigent circumstances was zero.

D. The agency has implemented policies and procedures that enable inmates to shower, perform bodily functions, change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when viewing is incidental to routine cell checks. Observations of restrooms and shower during the tour confirmed inmates have a level of privacy when using the restroom, showering and changing clothing. PREA friendly shower curtains are at the shower areas to provide a level of privacy. Inmates reported they are never naked in full view of staff; however, there were some dorms where inmates did not have privacy from staff direct viewing.

Policy and procedures require staff of the opposite gender to announce their presence when entering an inmate housing area. During the tour the auditor observed female staff announcing their presence when entering into living areas.

E. Policy reviewed prohibited staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the facility housed transgender and intersex inmates, the agency directs staff not to search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, the facility determines during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months the number of searches occurred was zero.

F. Documentation review revealed that staff receives training on how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmate, in a professional and respectful manner, and in the least intrusive way possible, consistent with security needs. The facility provided samples of documentation to confirm staff has received and reviewed search training consistent with policy. The PREA compliance manager confirmed there had been no cross-gender strip or visual body cavity searches conducted within the audited cycle.

Staff Interview Results:

- Fifteen security staff, representing staff from all shifts, was interviewed. One hundred percent of staff interviewed indicated that conducting cross-gender pat searches to determine one’s genital status was not permissible. One hundred
percent of the interviewed staff stated that they were trained on conducting cross-gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner. The interviewed staff reported that female staff can conduct cross gender pat down searches on male inmates if necessary, but generally, male staff conduct pat down searches. Cross gender pat down search training occurs every year during annual training. Staff reported that, they have not experienced working with any transgender inmates.

- One hundred percent of the staff reported that inmates can dress, shower, and toilet without being viewed by staff of the opposite gender and that female presence on housing units is announced. Staff announced, “Females on floor.” No female inmates are housed at the facility.

**Inmate Interview Results:**

- Twenty-eight random inmates were interviewed. Eighteen of the inmates reported that the presence of female staff is announced all of the time. The remaining 10 reported that the staff is not consistent with the announcements. Four inmates reported that female staff does not work on their unit; and that female staff did not work on all. A majority of the inmates reported being able to dress, shower and toilet without being naked and in full view of female staff. Seven inmates reported that they felt female staff could see them. Several inmates reported that partitions were recently put up within the last year.

**Concerns:**

The standard requires the facility to implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing.

The dorm areas where inmates perform bodily functions do not prohibit any staff direct viewing. Some toilets located in the dorms are not sufficiently covered. During the facility tour inmates were observed using the toilet. To block staff direct viewing the inmates use a large trash can to sit on top of the toilet next to them blocking staff direct viewing. This practice was observed in the following dorms.

- C2
- C4
- E2
- E1
- D2
- D1

- **Corrective Action:** The facility will install partitions and provide the auditor with documentation of scheduled renovation dates to make repairs and pictures of partitions installments. This provision is now compliant.
The G1 dorm hall windows where inmates shower do not prohibit any staff direct viewing. During the facility tour an inmate was observed showering from the outside hall; staff and auditor had a direct view of the inmate’s body.

- **Corrective Action:** The facility will request for the Maintenance Department to replace the frost on the lower shower window to block staff direct viewing from the hall. Facility will provided documentation and pictures of the completed work. This provision is compliant; the facility has provided the requested pictures.

where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. State of Non-Occurrence/Non-Applicability (No LEP/Disabled Inmate Orientation)
3. Memorandum – Alabama Institute for the Deaf and Blind & Google Translate Services IPCM
4. Statewide Network of Regional Centers
5. Lower Functioning Information/Materials Used
   a) PREA – What You Need To Know (English and Spanish) Poster
   b) PREA – What You Need To Know DVD (English and Spanish)
6. What you should know about sexual abuse & Sexual Assault (English and Spanish)
7. Pre-Audit Questionnaire/Adult Prisons & Jails
8. Interviews:
   a) Agency head interviewed
   b) Warden
   c) Facility PREA compliance manager
   d) Random staff (officers)
   e) Disabled inmate
   f) Limited English inmate
   g) Inmates who are blind, deaf, or hard of hearing
   h) Inmates who are LEP

A. The agency has policies and procedures to provide disabled inmates equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The facility has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Also, the facility ensures that written materials are provided in formats or through methods that ensure effective communication with inmate with disabilities, including inmate who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility will use staff that works with ADOC to assist with PREA education with inmate’s disabilities.

BCF requires that any inmate who appears to have a condition that would limit the inmate’s access to and participation in any program or service offered by the facility, shall be handled as according to agency/facility policies MOUs.

B. The facility has taken reasonable steps to ensure meaningful access to all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment
to inmates who are limited English proficient; this includes steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. Staff interviews and documentation indicated that onsite or using the internet for interpreting is used for inmates to include Spanish speaking inmates. Outside interpreting services are available to the inmate population as dictated by policy.

C. The facility does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties or the investigation of the inmate’s allegations. Interviewed staff indicated that they will document the limited circumstances in individual cases where inmate interpreters, readers, or other types of inmate assistants are used.

Staff indicated that inmate interpreters are used sometimes for non-related PREA issues.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months, the number of instances where inmate interpreters, readers, or other types of inmate assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the inmate’s safety, the performance of first-response duties or the investigation of the inmate’s allegations was zero.

Staff Interview Results:

- Eight of the interviewed staff reported that resident interpreters were allowed. Two staff members were unaware, if the use of inmate interpreters was allowed. After further probing, several staff provided examples of the use of inmate interpreters; however, it should be also noted that most staff reported rarely having non-English-speaking inmates at the facility.

Inmates Interview Results:

- Five targeted disabled inmates were interviewed and reported feeling safe at the facility. Four of the five targeted inmates were legally blind or hard of hearing. One inmate reported that he did not recall anyone going over information on PREA. He also stated that staff did not provide him with assistance, however they would have another inmate, or the chaplain will assist when he is unable to read the content of materials. All but one inmate reported that the disability did not hinder the inmate(s) from receiving information consistent with the random sample of inmates interviewed.

7. Interviews:
   a) Warden
   b) Facility PREA compliance manager
   c) Human Resources manager (staff)

A. BCF requires the facility not to hire or promote anyone who may have contact with inmate, and does not enlist the services of any contractor who may have contact with inmate as listed in this standard to include the following provisions as stated in the PREA standards. The below information is solicited on Form 216 A.

   1. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; to include persons who are mentally ill or disabled or retarded or chronically ill or handicapped, or institution providing skilled nursing or intermediate or long-term care or custodial or immaterial care.
2. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or

3. Has been civilly or administratively adjudicated to have engaged in the activity described in subsection 2.

B. The agency policy requires BCF to consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates.

C. Policy requires that before hiring new employees who may have contact with inmates, the agency performs a criminal background check; and consistent with Federal, State and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of inmate sexual abuse or harassment or any resignation pending an investigation of such allegations.

The Agency/BCF background check system includes the following:

- NCIC (National Crime Information Center)
- Fingerprint
- Obtain ABI/FBI Reports
- Traffic History Check
- LETS (Law Enforcement Tactical System) Alabama based database of offenses committed in Alabama.

In the past 12 months, the number of persons hired who may have contact with inmates who have had criminal background record checks was 52.

D. Policies and staff interviewed stated that the facility requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with inmates.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months, the number of contracts for service where criminal background record checks were conducted on all staff covered in the contract that might have contact with inmate was one.

E. The agency requires BCF to conducts criminal background records checks every five years on current employees and contractors who have contact with inmate per staff interviews.
F. The facility staff asked applicants and employees who may have contact with inmates directly about previous misconduct; they use a form to document and the agency conducts a driver license background check on all employees. The facility also imposes upon employees a continuing affirmative duty to disclose any misconduct related to PREA.

G. Agency policy prohibits staff from material omissions and the provision of materially false information. This may result in grounds for termination.

H. Interviewed HR staff confirmed that the facility will provide information on employment, such as hired and released dates and other basic information; however, they are prohibited for giving detailed information on employee substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer who may request this information.

Staff Interview Results:

- Interviewed HR director indicated that Human Resources Department ensures that all employees who are hired have an NCIC background check and are approved. The director also explained LETS (Law Enforcement Tactical System), an Alabama based data base of offenses committed in Alabama.

- Interview with the HR confirms that background clearances are placed in the employee files. The HR staff provided a list of all criminal background clearance dates.

- Interview and documentation from the HR manager indicated the following background checks are conducted for all employees.

- Interview with facility Human Resource staff confirmed a hiring process that is comprehensive and thorough. The facility performs criminal record background checks on all newly hired employees and contractors during the clearance process through the agency.

- Interview with a staff member for the BCF indicated that BCF performs criminal record background checks on all newly hired employees and contractors during the clearance process. This is done regardless of whether they may have contact with offenders. The employee’s information is entered into the system, and a response is sent back by BCF.

- Interview with facility Human Resource staff indicated that when a former employee applies for work at another facility, upon request from that facility, they would provide requested information as long as it does not violate policies or
laws. The requesting agency provides an authorization to release information signed by the former employee.

115.18 (b)

- If the agency installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology, did the agency consider how such technology may enhance the agency’s ability to protect inmate from sexual abuse? (N/A if agency/facility has not installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012, or since the last PREA audit, whichever is later.) ☒ Yes ☐ No ☐ NA

A. Policy requires that when designing or acquiring any new facility and in planning a substantial expansion or modification of existing facilities, the agency considers the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse. Interviews with the PREA compliance manager and warden indicated that there was no major expansion during the past three years. If there was a major expansion, the warden and the facility PREA compliance manager would be involved in any planning.

B. The facility management team indicated that the facility did not have a video monitoring system, electronic surveillance system, or other monitoring technology.

Staff Interview Results:

- Interviews with the warden and observations indicated that the facility does not have video monitoring system.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. ADOC Policy #306 – Investigations and Intelligence Division Evidence & Contraband
   a) Evidence Form (Incident Report#)
   b) Seized Currency
   c) Evidence/Property Inventory
   d) Evidence Disposal
   e) Condemnation Request Form
   f) MOU: The Lighthouse Counseling Center, INC
3. National Protocol for Sexual Assault Medical Forensic Examinations Adults/Adolescents
4. NIC Certificate of Completion – PREA: Investigating Sexual Abuse in a Confinement Settings
5. NIC Certificate of Completion – PREA: Your Role Responding to Sexual Abuse
6. PREA Specialized Investigation Training
7. Alabama SANE Centers – Lighthouse counseling
8. Pre-Audit Questionnaire/Adult Prisons & Jails
9. Interviews:
   a) Facility PREA compliance manager
   b) Medical staff
   c) Mental health staff
   d) Facility investigator
   e) Random staff (officers)
   f) SAFE and SANE – Off Site
   g) Inmate who reported sexual abuse

A. Policy requires the agency/facility to initiate and/or conduct administrative and criminal sexual abuse investigations to include inmate-on-inmate sexual abuse or staff sexual misconduct. The facility has designated facility staff to initial investigations by collecting documentations, etc. However, the agency investigators follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

B. The agency protocol is appropriate, and is adapted from or otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents,” or similarly comprehensive and authoritative protocols developed after 2011. The facility does not house youth/adolescents.

C. The facility offers all victims of sexual abuse access to forensic medical examinations at an outside facility without financial cost. The facility provides Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). If one is not available, the examination is performed by a qualified medical staff. The facility provided emails regarding efforts to provide SANE or SAFE staff.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of forensic medical exams conducted during the past 12 months was 34.
- The number of exams performed by SANEs or SAFEs during the past 12 months was 34.
- The number of exams performed by a qualified medical practitioner during the past 12 months was zero.
D. The facility makes available to the victim a victim advocate. If not available to provide victim advocate services, the facility makes available (to provide services) a qualified staff member from a community-based organization or a qualified facility staff member. The facility provided documentation that showed efforts to secure services.

E. The victim advocate is a qualified facility staff member, or qualified community-based organization staff that accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals as needed.

F. When a PREA allegation is investigated by an outside agency, the facility requests that the investigator follow the PREA requirements. The preponderance of evidence is defined as proof by evidence that, compared with evidence opposing it, leads to the conclusions that the fact at issue is more probably true than not. Policy also states that as a result of the preponderance of the evidence, the investigator may determine whether the allegation is substantiated.

G. According to policy the requirements for this standard Provisions 115.21 (a) through (f) also applies to state entities outside of the agency that are responsible for investigating allegations of sexual abuse.

H. The facility defines a qualified facility staff member or a qualified community-based staff member as an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination.

Staff Interview Results:

- One hundred percent of the interviewed security staff were knowledgeable of at least one staff member(s) responsible for internal investigations. Most of the staff could clearly articulate the intelligence and investigations investigators (I & I), PREA compliance manager, and/or shift commander.

- Most of the staff was able to describe the process and steps required to protect physical evidence; which included securing the area, putting on gloves, protecting the physical evidence, placing physical evidence in a brown bag, place any evidence in the evidence box; requesting the victim to not shower or brush teeth, and immediately seeking medical attention. One-hundred percent of the interviewed staff could articulate immediate notification to the supervisor, as the first process to protect any usable evidence.

- Interviewed SANE nurse for the MOU: The Lighthouse Counseling Center, INC. indicated that the facility has a MOU with the center. Based on her understanding the center bills the agency and not the inmates for services. In the past 12 months the center has provided services for 34 inmates.
Inmate Interview Results

- Two inmates at Bullock Correctional Facility reported being sexually harassed at the facility. One inmate reported that the facility did not initially allow him to contact anyone regarding the allegation, and that he was placed in “lock up” until the other person was transferred. He stated that several days later, he could discuss the matter with the facility lieutenant. The second inmate who reported sexual harassment stated that he left a message on the PREA hotline and the lieutenant responded the next day.

- Documentation submitted by the facility and confirmed by the facility PREA compliance manager, indicated that the facility has MOU with an outside provider, which is The Lighthouse Counseling Center, INC.

- Interview with the PREA compliance manager and documentation indicated that there have been no requests or a need for a victim representative to be used at the Bullock Correctional Facility.

- Interview and documentation indicated that there are no SAFEs or SANEs available at the facility; therefore, the Bullock Correctional Facility sends all sexual abuse victims to the Lighthouse for an examination by a SANE nurse.

- Interviewed staff, including the investigator, was familiar with the evidence protocol and roles they would play as first responders. Medical staff related their role in the sexual assault would be to provide any first aid that might be needed because of ensuring immediate medical attention. The staff stated they would “make sure the inmate victim was stable, and preserve the evidence.”

- Interview with the investigator indicated when outside agencies are responsible for investigating allegations of sexual abuse, the facility requests that the investigating agency follows the requirements of PREA. This includes the standard Provisions 115.21(g) 1 and 2. Interview with the investigator also indicated that they do not use outside investigators.

- For victims of sexual assault, interviewed staff indicated that the facility would offer all victims access to forensic medical examinations without financial cost. Staff indicated that SANEs/SAFEs services are provided by the Lighthouse.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. ADOC Investigation Request (Website)
3. Incident Report
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Agency head
   b) Warden
   c) Facility PREA compliance manager
   d) Facility investigator

A. Per interviews with the warden, facility PREA compliance manager, and the facility investigator, the facility ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment reported on inmate-on-inmate or staff-on-inmate misconduct through policy guidelines and follow-ups.

   The initial investigation begins immediately by the facility. The facility uses a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. The Office of Investigations is notified immediately and assumes control of the investigation when appropriate.

   Investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence (with attached copies of all documentary evidence).

   An additional interview with staff confirmed the process for receiving an allegation and for conducting the investigation, if an allegation of sexual abuse was reported. Interviewed staff stated they had been trained to report everything for investigation, including reporting, knowledge, allegations, and suspicion of sexual abuse or sexual harassment. Staff affirmed they are trained to accept reports from all sources, including third parties and anonymous reports.

B. The agency has in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations. Per policy, substantiated allegations of conduct that appears to
be criminal are referred for prosecution. Investigations staff imposes no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. ADOC publishes the policy on its website.

C. The agency PREA policy covers the responsibilities of criminal investigations outside of the facility.

D. The agency PREA policy covers the responsibilities of administrative investigations outside of the facility.

E. The Department of Justice / NA.

Staff Interview Results:

- An additional interview with staff confirmed the process for receiving an allegation and for conducting the investigation if an alleged sexual abuse was reported. Interviewed staff stated they have been trained to report everything for investigation, including reporting, knowledge, allegations, and suspicion of sexual abuse or sexual harassment. Staff affirmed they are trained to accept reports from all sources, including third parties and anonymous reports.

- As previously stated, 100% of the staff are aware that referrals are investigated and who is responsible for conducting the internal and external investigations. Staff identified the intelligence and investigations investigators (I & I), PREA compliance manager, and/or shift commander.

   b) Facility PREA compliance manager
   c) Random Staff (Officers)

A. The facility has trained staff that has contact with inmate on the requirements stated in this standard. According to staff interviews, sexual abuse and sexual harassment training is provided in pre-service orientation training, in-service, and other additional training and includes all requirements. The facility provided copies of the training sessions and rosters.

B. Training is tailored to the gender of the inmate at the employee’s facility. Review of documentation revealed that staff receives additional training if the staff is reassigned from a facility that houses only male inmates to a facility that houses only female
inmates, or vice versa. The staff will receive this training through additional pre-service training and post assignments.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of staff employed by the facility, which may have contact with inmates, who were trained or retrained on the PREA requirements, was 264.

C. Current employees have received training, and the facility has provided each employee with refresher training annually to ensure that all employees know the facility’s current sexual abuse and sexual harassment policies and procedures. The agency requires additional training for investigators, health practitioners, and mental health staff to receive additional training specific to their areas of responsibility.

D. The facility documents, through employee signature and electronic verification, staff understanding of the training they have received. The agency and BCF documents staff training using the Training Acknowledgement Form and a training roster, which requires the staff and instructor signature and date.

Staff Interview Results:

One hundred percent of the security staff reported being knowledgeable of the topics they had been trained in. The staff could describe the training on zero tolerance, resident and staff rights, dynamics of sexual abuse and sexual harassment, prevention and response protocol as well supportive services available to inmates. The staff was able to describe specific details on what they learned on communicating effectively with LGBTI residents and identifying signs of victimization. Staff reported that they received PREA related training when initially hired and annual in-service. When probed, several staff had a difficult time providing examples or information related to what are the unique dynamics of sexual abuse and sexual harassment in confinement settings.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. Inmate Orientation On Sexual Assault
   a) PREA-What You Need To Know (English and Spanish) Poster
   b) Inmate Handbook
   c) Inmate Receipt of PREA/Acknowledgement
   d) What You Should Know About Sexual Abuse and Sexual Assault (English Pamphlet)
   e) What You Should Know About Sexual Abuse and Sexual Assault (Spanish Pamphlet)
   f) Access To Interpreters MOU: Statewide Network of Regional Centers
3. Posters – No Means No (English and Spanish)
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Random inmates
   b) Intake staff

A. Staff interviews and documentation reviewed indicated that during the intake process, inmates receive information explaining the facility’s zero-tolerance policy regarding sexual abuse and sexual harassment, and how to report incidents or suspicions of sexual abuse or sexual harassment. The facility included the following in the inmate education:
o How to report sexual abuse, sexual harassment and retaliation.
o Free from the threat of sexual misconduct for all inmates.
o A program of prevention, detection, response, investigation.
o All allegations of sexual misconduct and/or sexual harassment shall be administratively and/or criminally investigated.
o You have the right not to be sexually abused or harassed.
o Incidents or suspicions of sexual abuse, sexual harassment and retaliation can be reported to any staff member.

During intake, inmates are given the inmate handbook. During orientation, additional PREA related information is provided, and the PREA video is shown. The staff conducting intake/orientation gives inmates the opportunity to ask questions to clarify anything they do not understand. Inmate acknowledgment statements are provided for receiving PREA information.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmates admitted during the past 12 months who were given PREA education information at intake was 579.

B. The facility provides education to inmates in person and through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents. This information is provided to the inmate within 30 days. Inmate interviews indicated that they receive this information before the 30 days.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmates during the past 12 months (whose length of stay in the facility was for 30 days or more) who received comprehensive education on their rights to be free from both sexual abuse and sexual harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to incidents within 30 days of intake was 579.

C. All inmates at the BCF received and had been educated on PREA. Inmates that transfer to the facility also receive the required PREA education. Staff interviews indicated that all inmates receive the PREA education upon entering the facility.

D. Staff and inmate interviews confirmed that the facility provides inmate education in formats accessible to all inmates, including limited English proficient, deaf, visually impaired, disabled, as well as to inmate who have limited reading skills. Staff and inmate interviews reveal that the facility provides the PREA education in English and Spanish,
to include inmate handbooks and posters. The video is used during orientation as well as in the dorm setting.

E. The facility maintains documentation of inmate participation in the education sessions by using the Orientation Checklist. The checklist requires the inmate to sign and date and is witnessed by staff signature.

F. In addition to providing PREA education, the facility ensures that key information is continuously and readily available and visible to inmate through posters, inmate handbooks, and other written formats.

Inmate Interview Results:

- Twenty-eight random inmates were interviewed. All but one inmate reported that they received information upon intake and orientation regarding sexual abuse and sexual harassment. The information was provided to them during orientation and they watched a video, within the first two weeks at the facility. Those inmates that had been housed at the facility for more than four years reported that they may not have received information initially, but all inmates received information on sexual abuse and sexual harassment within the last few years. When the auditor asked inmates more specific questions about the information received two inmates reported that they received information on how to report and their rights while housed at another Alabama Department of Corrections facility.

- Upon probing, all inmates reported being aware of the PREA hotline, however most of them did not know who the calls were going too. The inmates reported that the PREA hotline contact information was posted on the walls in the housing area, and every time you pick up the phone there is a prompt telling you about the hotline number. One inmate reported that he did not receive any information from the facility and that he has contacted the PREA hotline three times, and has not received any response. The inmate reported that he is younger and feels that he is being harassed by the “gay inmates.”

- The inmates are provided information regarding sexual abuse and harassment in the facility handbook, with the PREA hotline number and via the facility/department PREA video.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and
the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. ADOC Classification PREA Risk Factors Part 1 of 2
   a) Possible Victimization Risk Factor
   b) Potential Victim
   c) Possible Sexual Predatory Risk Factors
   d) Potential Predator
3. PREA Risk Reassessment
   a) Current Designation Level
   b) Reason for Reassessment
4. Attention: Laserfiche Scanners (IT)
5. Classification Spreadsheet
6. Pre-Audit Questionnaire/Adult Prisons & Jails
7. Interviews:
   a) Agency PREA coordinator
   b) Facility PREA compliance manager
   c) Staff who perform Screening for Risk of Victimization and Abusiveness
   d) Random inmates

A. The facility assesses inmates during screening to include inmates that transfer from other facilities for risk of being sexually abused.

B. Interviews and documentation revealed that screenings are taking place within 72 hours of arrival at the facility. Also, during screening, procedures require that staff review available documentation (judgment and sentence, commitment orders, criminal records, investigation reports, field and medical files) for any indication that an inmate has a history of sexually aggressive behavior. Housing assignments are made accordingly.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmate entering the facility within the past 12 months whose length of stay in the facility was for 72 hours or more; who were screened for risk of sexual victimization or risk of sexually abusing other inmate within 72 hours of their entry into the facility was 358.

C. The facility uses the agency Screening Form and the Screening for Risk of Victimization and Abusiveness as the objective screening instruments. Staff interviews for conducting Screening for Risk of Victimization and Abusiveness indicated that the facility uses the agency form and the PREA objective screening instrument to document this process. The PREA objective screening instrument has all of the required criteria. The results of
the assessment are documented on the form whether the inmate is vulnerable or sexually aggressive.

D. Staff interviews and documentation review reveal that the Screening for Risk of Victimization and Abusiveness includes the following:

- Whether the inmate has a mental, physical, or developmental disability;
- The age of the inmate;
- The physical build of the inmate;
- Whether the inmate has previously been incarcerated;
- Whether the inmate’s criminal history is exclusively nonviolent;
- Whether the inmate has prior convictions for sex offenses against an adult or child;
- Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
- Whether the inmate has previously experienced sexual victimization;
- The inmate’s own perception of vulnerability; and
- Whether the inmate is detained solely for civil immigration purposes.

E. The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse from past and previous facilities in determining whether an inmate is at risk for being sexual abuse.

F. Agency policy requires that the facility reassess each inmate’s risk of victimization or abusiveness within a set time period, not to exceed 30 days after the inmate’s arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening.

G. Interviews and documentation reviewed indicated that the staff reassesses the inmate’s risk level for sexual victimization or sexual abusiveness whenever warranted and within 30 days of arrival at the institution if the inmate is identified as being at risk for victimization or for being at risk for being sexually abusive from the initial screening.

H. Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to any questions as stated in section (d).

I. The agency implements appropriate controls on the dissemination within the facility of responses to questions asked under this standard to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmate as described above. Management staff indicated that the way the facility controls sensitive information is on a need to know basis.
Staff Interview Results:

- Interviewed staff indicated that the facility’s PREA compliance manager, intake, investigations, medical, mental health and classification staffs have access to inmates risk assessments to protect sensitive information from exploitation.

- Interviewed staff indicated that the initial risk screening assessment considers all the requirements listed in this standard and reviewed the screening assessment tool with the auditor.

- Interviewed staff indicated that the process for conducting the initial screening is a checklist and a written format using a point system.

- Interviewed staff indicated that the staff does reassess inmate’s risk level as needed due to referrals, request, an incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

Inmate Interview Results:

- Twelve interviewed inmates were placed at the facility within the last 12 months. Eight inmates recalled being asked questions regarding prior history of sexual abuse, or whether they identified as being gay, lesbian, or bisexual. These questions were asked upon arrival or during the intake/orientation process. One inmate recalled being asked similar questions again since their arrival at the facility.

Corrective Actions:

Confidential Communications:

As of 01/21/19, there were three confidential communications from inmates, and none from staff members. The confidential communication from the inmates did not indicate that the inmates were in any imminent harm or threatening self-harm. The inmates were added to the interview list.

Confidential Communication #1: Inmate letter stated that he was in the Faith Based Dorm and the PREA officer move him out of the dorm. His concern is that he has no PREA issues or violations and would like to be place back into the Faith Based Dorm.

✓ Interview with inmates indicated that two months ago he was labeled as Sexual Predator. The inmate’s concern was that the Parole Board will review the PREA label as being negative information or feedback.

✓ The auditor requested the initial PREA Risk Assessment and any additional re-assessments. On Wednesday, 01/23/19 the Classification Office provided the auditor with a copy of the requested documentation. The initial PREA Risk Assessment were dated on 12/22/17 which indicated that the inmate scored as a Sexual Predator and
additional documents referred the inmate to Mental Health. Mental Health conducted a session on 12/27/17.

✓ A second PREA Risk reassessment was conducted on 10/29/18, the inmate scored as a Sexual Predator.

✓ To address the inmate concern of moving out of the Faith Based Dorm because of being labeled as a Sexual Predator, the auditor interviewed the facility PREA compliance manager, it was indicated that Bullock eliminated the Faith Based Dorm on 04/02/18 due to facility renovations. Inmates were and will be move to different dorms to accommodate the renovation projects.

Confidential Communication #2: The inmate letter stated that he felt compelled to tell the auditor about PREA related issues at the facility. He indicated that the staff was prancing because of the upcoming PREA audit. The PREA staff has tagged random inmates with the status of victim or predator without justification or due process.

✓ Letter Number 2 did not have any information to identify the inmate. The PREA auditor could not schedule an interview with inmate. However, it appears that the facility counselors were doing reassessments.

Confidential Communication #3: The inmate letter stated that he would like to request a meeting with the PREA auditor concerning PREA. The letter stated that there are questions he would like to ask regarding PREA.

✓ Interview with inmates indicated that 12/02/18 he was labeled as a PREA Victim and was reassigned to another side of the dorm. The inmate concern was that the Parole Board will review the PREA labeled as being negative information or feedback.

✓ The auditor requested the initial PREA Risk Assessment and any additional reassessments. On Wednesday, 01/23/19 the Classification Office provided the auditor with a copy of the requested documentation. The initial PREA Risk Assessment was dated on 03/08/17 which indicated that the inmate scored as a Risk for Victimization and additional documents referred the inmate to Mental Health. Mental health conducted a session on 05/02/17.

✓ A second PREA Risk reassessment were conducted on 09/07/18, the inmate scored as a Risk for Victimization.

✓ During the inmate interview, he was ask if he feel any danger or unsafe in his current living unit. He stated no.

C. The facility did not have transgender or intersex inmates during the audit period. If the facility were to receive a transgender inmate, in deciding whether to assign a transgender or intersex inmate to a male living unit and in other programs, the facility will consider on a case-by-case basis whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems.

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. MEMO: Lieutenant Butler – BCF does not house inmates in protective custody
3. MEMO: No Inmates at high risk for sexual victimization were placed in involuntary segregated housing.
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Warden
   b) Facility PREA compliance manager
   c) Staff who supervise inmate in segregated housing
   d) Inmates placed in segregated housing for high risk of sexual victimization

A. Interviews and documentation review at facility indicated that inmates at high risk for sexual victimization are prohibited from being placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there are no available alternative means of separation from likely abusers. Interviews also revealed that if an assessment cannot be immediately completed, the facility will hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment. Inmates who are involved in a PREA incident may stay in involuntary segregated housing longer than the 24 hours.

B. Staff interviews indicated that if an inmate is placed in segregated housing, they will be provided with access to programs, privileges, education, and work opportunities. The facility informs the inmate of the reason why they are or may have limited opportunities to some programs, privileges or education.
C. If the facility assigns inmates to involuntary segregated housing, policy requires them to be housed only until an alternative means of separation from likely abusers can be arranged, and assignment does not exceed 30 days.

D. Interviewed staff indicated that, if the facility places an inmate in involuntary segregated housing, the facility will document as required.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for 1 to 24 hours awaiting completion of assessment was zero.

- The number of inmates at risk of sexual victimization who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement was zero.

- From a review of case files of inmate at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months, the number of case files that include both (a) a statement of the basis for facility’s concern for the inmate’s safety, and (b) the reason or reasons why alternative means of separation could not be arranged reported was zero.

Staff Interview Results:

- The warden, in an interview, stated the use of involuntary restricted housing would be a last resort, and if used, an assessment would be conducted documenting that less restrictive means were not available.

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and
the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. MOU: Alabama Coalition Against Rape
3. MOU: Alabama Department of Economic and Community Affairs
4. Poster: Victim Support Line (English & Spanish)
5. PREA Hotline #66 (English & Spanish)
6. Inmate Envelopes (Director of Investigations & Intelligence Division)
7. Pre-Audit Questionnaire/Adult Prisons & Jails
8. Interviews:
   a) Facility PREA compliance manager
   b) Random staff (officers)
   c) Random inmates

A. Interviews with staff, documentation and facility observations indicated that the facility had established procedures allowing for multiple internal ways for inmate to report privately to agency and facility officials regarding sexual abuse and sexual harassment, retaliation by other inmate or staff, to include staff neglect or violation of responsibilities that may contribute to PREA incidents. The following are internal reporting ways:

   • Tell family or Legal
   • Chaplain
   • Reporting to any staff member either verbally or in writing
   • Writing an inmate note
   • Hotline
   • Writing an anonymous note or letter

B. Interviews with staff, documentation and observations indicated that the facility has established at least one way for inmates to report abuse or harassment to a public or private entity that is not part the facility. The entity can receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request.

Standard requires inmates detained solely for civil immigration purposes be provided information on how to contact relevant consular officials and relevant officials of the Department of Homeland Security. This facility does not house inmates detained solely for civil immigration, however the agency provided a sworn affidavit that the ADOC does not detain persons solely for civil immigration purposes.
C. The agency policy mandates that staff accept reports of sexual assault and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff is required to document verbal reports immediately, but always before leaving the shift.

D. The facility ensures that staff can report sexual assaults and harassments privately and the agency informs staff through shift briefing, management meetings and PREA training on how to report privately. Management staff was aware of the mandatory reporting laws for elderly abuse.

**Staff Interview Results:**

- All of the interviewed staff reported that they have multiple means to privately report sexual abuse or harassment. Such reporting opportunities included notify the shift supervisor and completing an incident report, calling the PREA hotline, or reporting on the DOC website.

- The interviewed line staff reported that the inmates can privately report by using an inmate statement form, the hotline number, PREA compliance manager, staff, or family. Such reports can be made verbally or in writing. All the interviewed line staff reported that if an inmate verbally or in writing reports sexual abuse or harassment the allegations are responded to immediately. When probed, staff reported that the verbal report would be documented on an incident report. Such documentation has to be completed immediately but no later than four hours.

**Inmate Interview Results:**

- One hundred percent of the interviewed inmates stated that they can report sexual abuse or sexual harassment by calling the hotline. The inmates understood the purpose of the hotline; however, they did not know what to expect once the hotline was accessed to make a report. Most of the inmates felt that they could make a report in a confidential manner.

- Most of the inmates were aware of multiple ways to report to include but not limited to: the hotline, tell a trusted staff member, notify a relative, tell the lieutenant (PREA compliance manager), or write a letter and place in the medical box. One inmate reported that the phones are turned off at night, when vulnerable inmates are typically taken advantage of.

- Four inmates disclosed that they have reported to authorities, either in person or in writing, that they had been sexually abused or sexually harassed while at the Bullock Correctional Facility.

**Corrective Action:**

The standard requires the agency/facility to provide at least one way for inmates to report sexual abuse or sexual harassment to a public or private entity or office that is not
part of the agency, and that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request.

A check of all inmate phones in the living areas (dorms) revealed that 32 phones were not working. The following are dorms and the number of phones that were not working during the facility tour.

- C1 – 4 Phones
- C3 – 1 Phone
- C4 – 2 Phones
- K3 – 2 Phones
- K5 – 2 Phones
- K4 – 3 Phones
- J2 – 1 Phone
- I2 – 2 Phones
- G1 – 1 Phone
- G2 – 3 Phones
- F2 – 3 Phones
- H1 – 1 Phone
- E2 – 1 Phone
- E1 – 4 Phones
- D1 – 1 Phone

- Corrective Action: The facility will provide the auditor with documentation of scheduled phone repairs and documentation of completed work. Requested documentation were provided.

Inmates detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

The facility did not provide available information to inmates who may be detained solely for civil immigration on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- The auditor and the facility disused attaining copies of the United States Department of State Consular Notification and Access Document and copies of the Consular and Trade Offices for the State of Alabama; and maintain the information in the Law Library or General Library for inmates review for any inmate that may request the information.

- An email was shared with the auditor for the agency PREA Director stating that “We do not hold immigrants in our custody. That should be no-applicable.” The email also stated that “We’re not required to have that because we do not house immigrants.”

- The Assistant Agency PREA Coordinator indicated that the PREA Director will get a statement for their Legal Office.
On 01/26/19, the agency provided the auditor with an affidavit stating that The Alabama Department of Corrections does not detain persons solely for civil immigration purposes. This provision is now rated as compliant.

**Corrective Action:**

The standards require the facility to provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies.

Forty-two of interviewed inmates indicated that they were not aware of the outside victim advocates for emotional support services. However, most were aware of the Alabama Rape Crisis Center Lighthouse for collections of forensic medical examinations.

The standards also calls the same outside confidential support services for persons detained solely for civil immigration purposes, immigrant services agencies.

**Corrective Action:** The facility will publish the outside support services information in the staff/inmate newsletter with the address for emotional support services with the exception of the information for inmates solely for civil immigration purposes. This provision is compliant.

**Inmate Interview Results:**

- Two inmates reported sexual harassment while housed at Bullock Correctional Facility. One inmate reported that he was not told the results of the investigation and the second inmate reported that he is unaware if his allegation was investigated.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. MOU: The Lighthouse Counseling Center, Inc.
3. MOU: Alabama Coalition Against Rape
4. Alabama SANE Centers
5. Poster: Non Means No (English and Spanish)
6. Poster: Victim Support Line and PREA Hotline (English and Spanish)
7. RAINN
8. Pre-Audit Questionnaire/Adult Prisons & Jails
9. Interviews:
   a) Facility PREA compliance manager
   b) Random inmates
   c) Inmate who reported sexual abuse
A. The facility provides inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates the mailing address to the Rape Crisis Center. An interview with the facility PREA compliance manager indicated that the facility is obligated to house adult male inmates.

B. The facility staff informs inmates prior to them communicating with outside organizations that phone calls may be monitored and that reports of sexual abuse or sexual violence will be forwarded to authorities. Inmates receive this information in their Admission and Orientation Booklet.

C. The facility maintains memorandums of understanding (MOUs) and other agreements with community services providers that are able to provide inmates with emotional support services related to sexual abuse. Documentation of MOUs was provided.

Inmate Interview Results:

- Four residents reported being aware of services available to deal with sexual abuse outside of the facility if needed. After probing they could recall seeing information about counseling or victim services, but could not specifically state what or when to access victim advocacy or emotional supportive services. Forty-two interviewed inmates indicated that they were not aware of available services.

- All of the inmates reported having open access to the hotline number. One inmate reported that the phones are turned off at night when vulnerable inmates may be at risk for victimization. Two inmates who reported allegations of sexual harassment while at the facility, stated that the facility did not give them mailing addresses and telephone numbers for outside services. Since they were not offered the services they were unsure when they could speak to the outside provider, what they could discuss, or if the conversation would be confidential.

Corrective Actions:

The standards requires the facility to provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies.

Forty-two of interviewed inmates indicated that they were not aware of the outside victim advocates for emotional support services. However, most were aware of the Alabama Rape Crisis Center Lighthouse for collections of forensic medical examinations.

The standards also calls the same outside confidential support services for persons detained solely for civil immigration purposes, immigrant services agencies.
Corrective Action: The facility will publish the outside support services information in the staff/inmate newsletter with the address for emotional support services with the exception of the information for inmates solely for civil immigration purposes. This provision is compliant.

6. RAINN
7. Pre-Audit Questionnaire/Adult Prisons & Jails
8. Interviews:
   a) Facility PREA compliance manager
A. The facility uses the agency website page as one method of third-party reporting of sexual abuse and sexual harassment. The public is made aware through a visitor’s information.

A. Third-party information is being provided to all visitors regarding their family members that are incarcerated, through the agency website and by communication with the inmate. If at any time an inmate makes an allegation of being a victim of a sexual assault or sexual harassment and does not feel comfortable telling, writing, or using the hotline, the family member can make an official report on the inmate’s behalf by contacting the agency or facility. All sexual abuse or sexual harassment reports are done discreetly to not compromise the inmate if the abuse is involving a staff.

Inmate Interview Results:

- All of the inmates reported having open access to the hotline number as a third party, and stated that they believe the calls are private and confidential.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. Alabama Code 26-14-3—Section Mandatory Reporting
3. Incident Reports
4. Refusal of Sexual Assault Examination
5. Corizon: Release of Responsibility (English and Spanish)
6. Memo: BCF had no refusal for consent to treatment
7. Pre-Audit Questionnaire/Adult Prisons & Jails
8. Interviews:
   a) Agency PREA coordinator
   b) Warden
   c) Facility PREA compliance manager
   d) Medical staff
   e) Mental health staff
   f) Random staff (officers)

A. Policy requires staff to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in the facility, whether it is retaliation against inmate or staff who reported the incident; as well as staff neglect or violation of responsibilities that contributed to the incident or retaliation. This policy information was confirmed by staff interviews.

B. When sexual abuse incidents occur at the facility, staff interviews indicated that the facility would report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, initially to the supervisor or designated investigator. Apart from reporting to designated supervisors or officials and designated State or local services agencies, policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions.

C. The medical and mental health staff understands that they are required to report sexual abuse and to inform inmates of their duty to report and the limitations of confidentiality when providing inmate services.

D. The facility does not house youthful inmate under the age of 18; however, if the facility did house a youthful inmate they understand the mandated reporting laws. Staff also indicated that they would report allegations relating to vulnerable adults according to mandated reporting laws.

E. Interview with the PREA compliance manager indicated that the facility staff reports all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports to their supervisor, facility PREA compliance manager or an investigator.

Staff Interview Results:

- One hundred percent of the staff interviewed reported being aware of the agencies procedure for reporting any information related to an inmate sexual abuse. Interviewed staff could clearly articulate the necessity to report any incident or alleged incident of sexual abuse or harassment immediately. They
are aware of various methods of reporting in writing or verbally to include but not limited to: report to shift supervisor or PREA compliance manager.

- The interviewed medical and mental health staff reported that the inmates are provided information at the initiation of services regarding the limitations of confidentiality and their duty to report. It was also reported that the inmates are required to sign a consent form. The interviewed medical and mental health staff reported that they are required to report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment. The reports are made to the immediate supervisor and the PREA compliance manager. Both interviewed medical and mental health staff stated that they have made reports of allegations of sexual abuse or sexual harassment.

- Interview with the warden indicated that all allegations of sexual abuse and sexual harassment to include third-party and anonymous sources are reported directly to the facility PREA compliance manager and investigators.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:
Supporting documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. BCF did not transfer any inmates due to sexual safety
3. BCF did does not house protective custody/voluntary segregation inmates
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Agency head

A. When facility learns that an inmate is at substantial risk of imminent sexual abuse, it takes immediate action by offering the inmate the opportunity to move to different housing area or protection custody until the matter is resolved. The facility also may move the aggressor.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months, the number of times the agency or facility determined that an inmate was subject to a substantial risk of imminent sexual abuse reported was zero.

Staff Interview Results:

- All interviewed staff could articulate the response process if an inmate is at risk of imminent sexual abuse. The staff reported that action is taken immediately to address an inmate who is at risk of sexual abuse by privately talking to the person who may be at risk, immediately notifying the supervisor and separate the victim and perpetrator. Separation may include moving someone to a different unit or placing the victim in a room closer to the shift office. All the staff reported that information would only be shared with necessary parties. More specifically, staff described not sharing information with other inmates or unnecessary staff.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. Reporting to other Confinement Facilities
3. Statement of Non-Occurrence: BCF no allegation of an inmate being sexually abused while confined at another facility
4. Pre-Audit Questionnaire/Adult Prisons & Jails
5. Interviews:
   a) Agency head
   b) Warden
   c) Facility PREA compliance manager

A. The facility has not received an allegation that an inmate was sexually abused while confined at another facility. Per staff interviews, the facility will notify the head of the facility or appropriate office of the agency where the alleged abuse occurred.

B. Policy requires the warden or designated staff to provide notification to the other facility head as soon as possible but always in 72 hours after receiving the allegation with documentation of reporting.

C. The facility documentation is informed of an incident.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- During the past 12 months, the number of allegations the facility received that an inmate was abused while confined at another facility was zero.

D. Staff interviews indicated that when receiving allegations reported from other facilities, they would complete an incident report and send for investigation. The facility uses the same process of reporting in-house allegation of sexual abuse and sexual harassment for inmates that report allegations of sexually abused while confined at another facility to investigations.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- During the past 12 months, the number of allegations of sexual abuse the facility received from other facilities was zero.

Staff Interview Results:

- Interview with the warden indicated when and if the facility receives an allegation from another facility or agency that an incident of sexual abuse or sexual harassment occurred at their facility involving staff, they would put that staff on no-contact. If it involves an inmate, they will monitor that inmate until the investigation is completed.

where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Supporting documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. ADOC: A Trauma-Informed Guide for First Responders
3. Sexual Abuse First Responder Checklist (Non-Security)
4. Sexual Abuse First Responder Checklist (Security)
5. Investigations Mapping
6. Pre-Audit Questionnaire/Adult Prisons & Jails
7. Interviews:
   a) Security staff who have acted as first responder
   b) Non-security staff who acted as first responder
   c) Inmate who reported sexual abuse

A. Interviews with staff and staff training indicated when staff learn of an allegation that an inmate was sexually abused, the first security staff to respond separates the victim and abuser; preserves and protects the crime scene; and if the incident occurred within the appropriate period for the collection of physical evidence, they will request that the alleged victim not take actions that could destroy physical evidence; to include washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.

B. According to non-security staff, if they are the first responder they will request that the alleged victim not take any actions that could destroy physical evidence, and notify security staff.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months, the number of allegations that inmates were sexually abused was 59.
- Of these allegations, the number of times the first security staff member to respond to the report separated the alleged victim and abuser was 59.
- In the past 12 months, the number of allegations where staff was notified within a period that still allowed for the collection of physical evidence was 34.

Staff Interview Results:

- Three first responder staff members were interviewed. The staff was able to describe the actions they would take as a first responder. Such actions included but was not limited to: separate the victim and perpetrator, place one on segregation, report immediately to the supervisor, take to medical for a
healthcare assessment, encourage the inmate not to shower or brush teeth, place “suspect” in isolation so they won’t contaminate the scene, secure the crime scene, and bag and tag evidence. When probed one of the first responders could not clearly articulate or was not aware of the process to collect evidence.

Inmate Interview Results:

- Two inmates disclosed that they have reported to authorities, either in person or in writing, that they had been sexually harassed while at the facility. One inmate reported that staff responded within five days and the other inmate reported that staff responded the next day. One inmate stated that the delay was due to the initial officer that he notified. He stated that the officer wouldn’t let him talk to the lieutenant immediately; therefore it took him five days to discuss his allegation.

- One of the two targeted inmates stated that staff responded quickly. When the initial allegation was made staff immediately took a report. One targeted inmate stated that upon the lieutenant becoming aware of the allegation, he was taken to medical. While at medical he was notified how to press charges; however, no one offered him counseling or supportive services. One targeted inmate reported that he was being sexually harassed therefore seeking medical attention was not necessary.

- After further probing, both inmates reported that they were sexually harassed and in fear that the threat of sexual abuse was going to occur. Due to the nature of the allegations, the targeted inmates did not feel it was necessary nor were they offered information about sexually transmitted infection prophylaxis or testing for sexually transmitted infections.

- Both inmates reported that they were not offered to contact anyone after reporting the sexual harassment allegation. One inmate reported that he attempted to speak to his lawyer however was not allowed because he was initially placed on the lock up unit until the other inmate was transferred to another prison. Both inmates reported that the facility did not provide mailing addresses or telephone numbers for outside services. Both inmates were unaware how they would’ve accessed outside supportive services. Since the inmates were not offered the supportive services, they are unaware if they are able to have confidential communication with outside supportive services.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. Statement of Non-Occurrence: No inmates were moved due to retaliation
3. Bullock’s Victim/Predator Housing Designation (Main Camp) Spreadsheet
4. PREA Sexual Abuse Retaliation Monitoring Documentation
5. Statement of Non-Occurrence: No inmates were transferred due to sexual safety
6. Pre-Audit Questionnaire/Adult Prisons & Jails
7. Interviews:
   a) Agency head
   b) Warden
   c) Facility PREA compliance manager
   d) Designated staff member charged with monitoring retaliation
   e) Inmates placed in segregated housing for high risk of sexual Victimization
   f) Inmate who reported sexual abuse

A. Facility prohibits retaliatory behavior by inmates or staff in regards to the reporting of sexual abuse, sexual harassment, or cooperation with investigators as it relates PREA related incidents and allegations. Inmate’s rights documentation and staff policy establish expected facility conduct. The facility PREA compliance manager is responsible for monitoring retaliation along with supervisors to monitor inmates as it relates to PREA allegations and incidents.
B. The facility has several protection and reporting measures, for inmates. The process is overseen by the facility PREA compliance manager who works in concert with the facility management team and supervisors to ensure privacy and policy compliance. The facility has the option to change inmate housing or transfer inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

C. The facility reported that there is no retaliation for this audit reporting period. However, if the facility were to have issues with retaliation, the policy will guide them on this standard. For example, for at least 90 days following a report of sexual abuse, the facility monitors the conduct and treatment of inmate or staff who reported the sexual abuse; and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmate or staff; and act promptly to remedy any retaliation. Items the facility should monitor include inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The facility continues monitoring beyond 90 days if the initial monitoring indicates a continuing need.

D. If an inmate is being monitor, the facility PREA compliance manager indicated that the monitoring include periodic status checks, visiting the inmate in different locations around the facility.

E. Interviewed facility PREA compliance manager also indicated that if any volunteer, intern or contractor cooperates with an investigation expresses a fear of retaliation that the same process for monitoring staff will be implemented.

F. The facility’s obligation to monitor will terminate if the investigations determines the allegation is unfounded.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of times an incident of retaliation occurred in the past 12 months was zero.

Staff Interview Results

- Interviewed staff indicated that when preventing retaliation against inmate and staff who report sexual abuse or sexual harassment or who cooperate with sexual abuse or sexual harassment, Investigations would change inmate housing or transfer an inmate, remove alleged abusers, and refer inmate to counseling for services. When preventing retaliation against staff, they would change the staff shift or change the staff work details.
- Interviewed staff indicated that they would monitor the inmate at least weekly. However, this process would end around 90 days.

- Interviewed staff indicated that there were no complaints from inmates alleging retaliation from staff or inmates alleging retaliation.

6. Pre-Audit Questionnaire/Adult Prisons & Jails
7. Interviews:
   a) Warden
b) Facility PREA compliance manager  
c) Staff who supervise inmates in segregated housing  
d) Inmates placed in segregated housing for high risk of sexual victimization

A. The facility uses segregated housing to protect an inmate who is alleged to have suffered sexual abuse is based on the requirements of standard 115.43. Interviews and documentation reviewed indicated that inmate at high risk for sexual victimization are prohibited from being placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there are no available alternative means of separation from abusers. Interviews also revealed that if an assessment cannot be immediately completed, the facility will hold the inmate in involuntary segregated housing for 24 hours while completing the assessment.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmate who alleged to have suffered sexual abuse that were held in involuntary segregated housing in the past 12 months for 1 to 24 hours awaiting completion of assessment was zero.

- The number of inmate who allege to have suffered sexual abuse who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement was zero.

Staff Interview Results

- Interview with the warden indicated that policy prohibits placing inmate at high risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing instead of other housing areas unless an assessment has determined there are no available alternative means of separation from potential abusers. It was also indicated that inmate at high risk for sexual victimization or who have alleged sexual abuse be placed in involuntary segregated housing only until an alternative means of separation from likely abusers could be arranged.

- Interview with the warden indicated that the facility management team conducts sexual abuse incident review team meetings. The team includes upper-level management and allows for input from line supervisors, investigators, medical and counseling staff. The team considers all requirements listed in the standard.

   e) Inmate who reported sexual abuse

A. Interviews with the investigator indicated that when they conduct investigations into allegations of sexual abuse and sexual harassment, they do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.
B. The facility uses investigators who have received special training in sexual abuse or sexual harassment investigations. The investigators have completed the NIC online/specialized training.

C. Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; review prior complaints and reports of sexual abuse involving the suspected perpetrator.

D. When a case has been substantiated, allegations of conduct that appear to be criminal are referred for prosecution and the agency consults with the prosecutor. When an outside agency is investigating the facility cooperates and remains informed about the progress of the investigation.

E. According to interviews, the credibility of an alleged victim, suspect, or witness are assessed on an individual basis and not determined by the person’s status as inmate or staff. The agency does not required inmates who allege sexual abuse to submit to a polygraph examination or other truth-telling devices as a condition for proceeding with an investigation of an allegation.

- The interviewed medical and mental health staff both reported that inmates receive timely and unimpeded access to emergency medical treatment and crisis intervention services. Medical care is offered 24/7; however mental health staff is not always available. However, it was reported that because of a recent lawsuit, there would be an increase of weekend coverage for mental health services. Onsite mental health staff is tasked with providing onsite crisis intervention services.
Medical staff will request an offsite SANE nurse to conduct forensic medical examinations. Medical exams occur as soon as medical is notified of the incident. The interviewed medical staff stated that sometimes there is “lag time” with getting in touch with the sexual assault center to conduct the SANE examination. Since mental health staff is not available 24/7, mental health services may be delayed a day.

The interviewed mental health and medical staff reported that professional judgment is used when delivering services. It was reported that often times the inmate will state that they do not want counseling services; however mental health staff will still follow up with them after an allegation of sexual abuse or sexual harassment. Both interviewed medical and mental health staff reported that inmate victims of sexual abuse are offered timely information about access to emergency contraception and sexually transmitted infection prophylaxis.

Interviewed staff describes the following actions they would be taken as a first responder: Separate the alleged victim and abuser, preserving and protecting evidence on the victim, abuser, and the location where the incident occurred.

Interviewed staff indicated that they would ask the alleged victim and abuser not to take any actions that could destroy physical evidence; washing, brushing teeth, changing clothes, urinating, defecating, drinking, eating, etc.

Interviewed staff indicated that they would immediately notify their supervisor.

where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents, Interviews and Observations

1. ADOC Policy #454-Inmate Sexual Abuse and Harassment (PREA)
2. MOU: The Lighthouse Counseling Center, Inc.
3. Memo: Rape Crisis Center/SANE Centers

7. Interviews
   a) Warden
   b) Facility PREA compliance manager
   c) Medical staff
   d) Mental health staff
   e) Inmate who reported sexual abuse

A. The facility offers medical/mental health evaluation and provides services to all inmates who have been victims of sexual abuse.

B. Staff interviews indicated that evaluations and services of victims include follow-up services, referrals for continued care following inmate transfer to, or placement in other facilities, or their release from custody.

- The interviewed mental health staff reported that if an inmate is assigned to a counselor, that counselor will conduct an evaluation. If the assigned counselor is not available, the on-call crisis counselor will conduct the assessment. The first goal is to have the inmate work with the staff they are already assigned too. Facility mental health staff offer counseling services, however are not aware of the scope of outside services that is available to the inmate.
- Medical will provide services along with looking at past medical history to determine if there is a history of infectious diseases. The nature of the medical exam is dependent on if the allegation of sexual abuse and whether the incident was reported to medical within the 72-hour window. The onsite medical staff will conduct a brief medical exam, limiting the scope of services to ensure they do not disturb evidence or services provided by the SANE examiner. The onsite medical staff will draw blood for sexually infectious diseases, and respond to any identified follow up care.

- The interviewed mental health and medical staff reported that the services are available in the community. Victims are not charged for services rendered as a result of an allegation of sexual abuse. The facility houses only male inmates, and have not had to provide services for pregnant inmates. The medical and mental health staff reported that they conduct mental health evaluations on all inmates on inmate abusers and offer treatment services if appropriate. It was reported that many of the inmates will continue to deny their involvement in an allegation of sexual abuse.
